By FML

Cameron's first Town Meeting was a major success in terms of competence of speakers, attendance in numbers of community leaders and the basic mix for such a meeting - enthusiasm.

But perhaps the most interesting part of the program was the open discussion or forum part of the program which opened questions and discussion from the more than 200 men and women there.

A major portion was devoted to comments on ideas about how to improve or eliminate the downtown block in Cameron west of the Courthouse.

After Mayor Bassel Wilson introduced the idea of some kind of federal aid to level the block in question, re-do downtown streets, subsurface service lines and put utility lines underground, a number of men kept the discussion going on the need to revitalize the downtown area.

Finally, Chairman Bob Wells, qualifying that some questions of the local-federal relationship would have to be settled before such a program, more than once asked for a show of hands on the number of people present who favored some kind of federal program to improve the block discussed by the mayor. During the last count, the large majority of hands went up.

Discussion from the floor ranged widely on the subject of downtown improvement, centering around the block. Mayor Wilson held up a book listing federal programs beyond the urban renewal projects which are available for improvement programs.

It was obvious that downtown improvement rated as high on everyone's list as development of industry itself.

Special guests of the Town Meeting were industrial specialists and executives from rail, freight and utility companies, as well as the district highway department.

They added to the dimension of need for continuous effort, emphasized by Caldwell's Charlie Easter, by pointing the value of planned industrial sites and the non-profit type of industrial foundation, currently being drawn up by the Cameron Chamber.

It was John Perryman of Lone Star Gas Co.'s Area Development, who said that a community has a one-third better chance to develop industry with a foundation than without one. Coy Starnhill, TP&L, Dallas, urged continuation of such a program and said of the large attendance "Here's your success in the people who are here tonight."

Olin G. Humphries, Southern Pacific, Dallas, cited the basics of industrial development sites, bringing rail, road, utility, water and sewer service to the site and having it available before an industrial prospect looks around the community.

The substance of the discussion, probably one of the most basic community exchanges on community needs in recent history and reminiscent of the old New England town meetings of yesteryear, was "let's press forward, let's solve these problems."

It was considerable enthusiasm at work, but only a preamble to what all the experts urged...a lot of continuous meeting, fund raising and work.

## Rockdale Defeats Half Million Bond Proposal By 5-1

Rockdale citizens defeated all four propositions in a half-million dollar bond election Tuesday. All of the propositions lost by about 5 to 1 votes.

Voters defeated 295-76 a proposal for \$175,000 in revenue bonds for waterworks improvements;

Defeated 301-68 a proposal for \$75,000 in bonds for sewer improvement to be repaid through water and sewer funds;

Defeated 308-61 a proposal to authorize \$150,000 for street improvements to be repaid through city taxes;

Defeated 303-72 a proposal for \$100,000 for general waterworks extension and improvements to be repaid through city taxes.

A team of engineers hired by the city to evaluate Rockdale's needs made the list of proposals. Estimates were that had the proposals passed, it would raise the water rate 13 per cent and increase taxes 28 cents on \$100 valuation.

Milam County's 4-H Poultry Judging team placed third in state - wide competition. They are left to right -- Assistant County Extension Agent, Charles

W. Henson, Arthur Jistel, Joe M. Brady, and Larry Jungmann. The event was a part of the 4-H Roundup conducted on the campus of Texas A&M University.

## 59th Productive, Schiller Reports

By Lloyd Albertson

"It was one of the most productive sessions of the Legislature in this century," Representative Milton Schiller of Cameron said Monday that was the way a good many political observers, including Gov. John Connally, have assessed the session of the 59th Legislature which ended last week. And he said he felt they did a very good job of getting things accomplished.

Among the major bills enacted during the session, he pointed out, were: Congressional redistricting, State Senate redistricting and House of Representatives reapportionment to comply with the U.S. Supreme Court order, passage of a 3.65-billion dollar biennial appropriation bill, a teacher's pay raise of 73 million dollars, and the submission of a number of amendments to the State constitution to be voted on in 1965 and 1966.

There was considerable doubt up until the last hectic few days that the Legislature could finish its work within the 140 day regular session period.

### BEAT DEADLINE

"But," Rep. Schiller remarked "as it turned out, the session ended exactly 3 hours and 3 minutes before the deadline."

Rep. Schiller reported that two of his bills were passed and signed into law. One of these was HB 43 which authorizes the State Aeronautics Commission to loan funds to small towns and cities under 25,000 population for airport construction or improvement. Gov. Connally signed the bill on May 19.

The other bill - HB 350 - removed Robertson County from the 85th Judicial District and joined it with Milam County in the 20th Judicial District. It will go into effect on Sept. 1, 1965.

Six other bills which Rep. Schiller co-sponsored with other House members also were passed by the Legislature. Among them were: a minor change in the drivers license law, raising the speed limit for pick-up trucks, provisions for a run-off in special elections for state offices, and creating a Pond Creek watershed district in Milam and Falls Counties.

### NEW DISTRICT 26

Like other House members, Rep. Schiller had changes made in his present District 45 by the redistricting measure. The new district will include Milam, Robertson and Falls Counties and will be known as District 26. He said he was pleased with the change, and pointed out that it remains as one of the few truly rural districts in the State.

Rep. Schiller said he believed that much of the success of the session was due to the new House Speaker, Ben Barnes, and credited him with getting much of the major legislative program passed.

"I was very happy to be on his team," he said. Rep. Schiller said his own opinion was that the 59th Legislature

did a very good job, although some things did not please many members, especially in the redistricting measure. He quoted the English statesman, Gladstone, as saying: "Good laws make it easier to do right and harder to do wrong."

"We believe we did our best to pass good laws - and to do right by the people of Texas, the school teachers, the school children, the older citizens and the taxpayers of the state."

## R. F. LINDHORST WINS \$25 GIFTS IN 'VALUE DAY'

R. F. Lindhorst of Buckholts, Monday won \$25 in gift certificates given away by the United Merchants of Cameron following a big Special Value Day.

Lindhorst's name was drawn from some 1100 registrations from shoppers around the Milam area. Bill McIntosh, president of the United Merchants group said retail merchants were planning to meet Thursday morning for coffee to discuss continuation and perhaps a broader program along the Special Value Day line. He asked that member merchants contact him for time and place since it had not been established at press-time.

Participating merchant's reported a good day, one noting the best promotion day sales in two years. Downtown shopping traffic was steady to heavy, businessmen noted.

Lindhorst was the third Milam area winner in the Special Value Day promotion sponsored by 29 Cameron retail stores.

## 4-H TEAM PLACE 3RD AT STATE

Milam County's 4-H Poultry Judging team captured third place in the state-wide competition at the 1965 4-H Roundup. This team scored 2697 out of a possible 3099 points.

Joe Michael Brady, Buckholts, walked away with fourth high individual scoring honors by posting 918 points out of a possible 1000 score. Arthur Jistel placed sixth with 916 points.

Team members were Joe Michael Brady, Arthur Jistel and Larry Jungmann. County Extension Agent J. D. Moore coached the team.

Harris County, coached by Assistant County Extension Agent Don Portie, placed first with 2817 points. Second place went to Brazos County who scored 2765, coached by County Extension Agent Tom Sistrunk.

The 4-H Poultry Judging Contest is sponsored by the Texas Poultry Improvement Association. An all-expense paid trip to the 4-H Invitational Interstate Poultry Judging contest at Chicago is awarded to the winning team by the TPIA.

Harris County, as State Champions, will represent Texas in the National Contest. Out of the past six contests, Texas teams have won two national championships, Brazos 1959; Erath 1963 and Brazos placed second in 1961 - 1/2 point behind the winner.

Mr. T. A. Hensarling, executive secretary of the TPIA, presented award medals to members of the top three teams and to the three high individuals.

DAY CAMP - Girl Scout Troop 369 prepares camp grounds for a week of day camp - plus two 'overnights' for this energetic troop and their leaders. The fun-filled week included campouts, skills

and crafts for about 50 Cameron girl scouts at Wilson Ledbetter Park. ("dittie bags" hanging on the line hold the girls eating utensils.)

# 'Town Meet' Draws 225 City Leaders

Easter ...

... Caldwell Story

Charlie Easter, Caldwell industrial development leader, told the Town Meeting audience Tuesday night that his community of 2100 people had "to do everything" to get industry. They did.

He said the community raised more than \$300,000 or \$150 per person in the town for various projects from building streets, a school, a hospital to establishing an industrial site.

The equivalent amount for Cameron would be more than \$30,000 if Cameron raised as much per capita as Caldwell.

Caldwell recently saw an aluminum fabricating plant, employing upward to 150 people, open a Caldwell branch. The plant which makes step ladders and folding chairs recently opened at a site in the Caldwell industrial park.

Easter said that the Cameron Town Meeting would be just the first of continuous meetings if Cameron were to develop a real industrial program.

"We have meetings going all the time," he said.

Earlier, he told head table officials that he was impressed by the more than 200 people who attended the Town Meeting. He said Caldwell's first effort years ago drew little attendance.

He cited the fact that Burleson County had lost about 9,000 people during recent years and that Caldwell "had to do something or we would all have to leave."

They did not. As Easter pointed out, the community raised funds for projects that have all but rebuilt Caldwell and most of which, he implied, were present in the Cameron community now.

"I wish we had the population you (Cameron) have to work with," Easter said.

## McCullin ... CIF

A. W. McCullin Tuesday night gave a brief talk on the Cameron Industrial Foundation during the Town Meeting program at Methodist Fellowship Hall.

But he announced that a panel or board of directors will be meeting to elect officers for the re-organized foundation, based on a non-profit charter.

McCullin, a former mayor of Cameron, and active in civic work here for 25 years, noted the basic job for the foundation was to organize to obtain funds for industrial development purposes, industrial sites and promotion.

The present foundation, chartered on profit basis, two years ago, is being re-chartered on the non-profit basis.

About 10 men form the foundation board.

## Foundation Helps, Experts Advise

Cameron industrial prospects were reviewed Tuesday night before a crowd of about 225 community leaders and industrial representatives at the Cameron Chamber's first "Town Meeting."

Moderator Bob Wells introduced a panel of six speakers at Methodist Fellowship Hall who touched on major aspects of industrial possibilities and community programs in brief 15-minute talks.

And then questions and comments from the floor opened up discussion about razing the block west of the Milam Courthouse, additional recommendations on industrial sites and industrial location.

### NEW DOWNTOWN?

Mayor Bassel Wilson opened up

the prospects of, in effect, re-doing the whole downtown around the block bounded by First St., Main St., Central and Houston in mid-town Cameron.

And the consensus of industrial speakers was that organization, particularly a definite industrial foundation gives the small city a better chance to bring in or develop additional payrolls.

Businessman Anton Anderle also raised the question of considering the economic effect of retired people returning to Cameron to reside. Wells said the idea should be incorporated in an over-all plan to boost the Cameron economy.

Rep. Milton Schiller of Cameron said that his experience in the Legislature showed that Cameron is but one of many towns this size having to evaluate its position and study ways to compete with change.

## Kelly ... TIC

James K. Kelly, assistant executive director of Texas Industrial Commission, Tuesday night announced Cameron would be the first community in Texas to which TIC experts will bring a new, day-long community development program.

In discussing essentials of industrial development and location, Kelly said the former TIPS program (industrial planning program) in which community leaders met in Austin with TIC head Harry Clark and other industrial experts, will be reversed to bring the experts to the community.

Kelly cited an economic concept which is basic to community growth. He said that every dollar of imported money is worth \$2 1/2 to the community. And he included tourism as well as industrial payroll as a source of dollars.

He pointed out that community projects are not necessarily the big Eastern corporations, but as the man who can hire another man.

He urged developing the home-grown idea, encouraging someone to take an idea and put it to work. And he urged encouragement of the small industry already in business to expand. For instance, he said, the eight recognized industrial payrolls could each add one employee and increase community employment by eight.

Kelly also urged getting the support of the allies, the gas, electric, rail and other concerns which have industrial development programs.

McCullin, a former mayor of Cameron, and active in civic work here for 25 years, noted the basic job for the foundation was to organize to obtain funds for industrial development purposes, industrial sites and promotion.

The present foundation, chartered on profit basis, two years ago, is being re-chartered on the non-profit basis.

About 10 men form the foundation board.

He pointed out how attitude of the gas station attendant, the man-on-the-street, the local buyer all affect a community's image.

His remarks closed the panel of six speakers who appeared before the crowd of some 225 people at the first Town Meeting sponsored by the Cameron Chamber of Commerce.

SEE WELLS PAGE 3

## Before Commissioners ....

# Elm Creek Boosters To Seek

Officials of the Elm Creek Watershed will meet with Milam County Commissioners Court 10 a.m. Thursday, June 24, to discuss the possibility of Milam County's maintaining 16 structures proposed for the watershed.

E. A. Perrin, secretary of the Elm Creek Authority, said that delegates also are being invited from the Cameron Chamber, Cameron Rotary and Lions Clubs, the Brushy Creek Water District and Rockdale.

Gilbert Kretschmar, head of the State Soil & Conservation program of Temple, will present information on proposed water control structures in the Elm Creek Watershed and losses incurred during recent floods without them.

TWO OK'D THUS FAR Both Falls and Bell County Commissioners Courts have endorsed

programs of maintenance of water control structures. Bell County will maintain, when built, structures in Elm Creek, Nolan and other districts, while Falls County commissioners have approved maintenance of any structures in the Elm Creek Watershed in Falls County.

Perrin said 38 structures are proposed in Bell County and 16 in Milam County. A few other structures would be built in Falls and McLennan Counties, which have small segments of the Watershed within their boundaries.

Perrin said though the maintenance in Milam County would be small compared to that in Bell County, the benefits in Milam County would be far greater because the black land cultivated plain spreads out here. He quoted one conservationist who told Bell

## Wilson ... City

Mayor Bassel Wilson proposed using federal funds on a two federal to one local matching basis on the block west of the Courthouse Square in his talk on City programs at the Tuesday Town Meeting.

And he said a 12-acre option has been taken to expand the Cameron Airport north, allowing room for City to pave and light a 3,300-foot runway with 500 feet on each end for a graveled safety strip.

His comments elicited remarks favoring some form of federal assistance from E. A. Perrin, Cameron civic leader, and a review of the uses of federal programs on block clearance in Wichita Falls, his former home, by Rev. Richard Freeman, chairman of the Chamber civic improvements committee.

Wilson also noted \$23,000 in improvements had been made in sewer, water service and that 63 blocks of double cut penetration paving and 20 blocks of hot mix asphalt have been or are being completed in the city.

In listing other projects about \$6,000 and 28 pieces of city equipment in use, the Mayor also urged his audience to consider removing the entire block west of the Courthouse with federal assistance, and give a "new look" downtown with plenty of parking space.

Wilson said the federal government would credit Cameron with as much as \$150,000 for previous improvements in the downtown area, require an additional \$100,000 cash in order to qualify Cameron for a \$750,000 project which would include removal of the block and reworking downtown and placing utility lines underground.

Mayor Wilson asked people both for and against such a project to speak to Councilmen. During his talk, he held aloft a book which listed various federal projects available to communities.

## Law ... School

Roy Law, president of Cameron School Board, Tuesday night said that education has advanced more in the past 20 years than in the previous 2,000.

He enumerated projects to continue improvement of school buildings still needing additional improvements, including new sections of metal-frame windows, fan, new lights at the various buildings.

Law noted that the Cameron School Board is now interviewing applicants for superintendent. And he said that a school superintendent "should have the opportunity to exercise greater influence over youth than any pastor of any church."

He said "our real problem is not merely whether we can pass on the culture of one generation to another, or create a new one fast enough. It is whether we can educate a new kind of man adequate to survive it all."

Law emphasized that schools of our time must be dynamic and aggressive in the arena of human thought.

He summarized his remarks in noting that the "important characteristics of schools of our times are:

"ONE - They must be dynamic and aggressive in the arena of SEE LAW PAGE 3

## Fuchs Named Outstanding Lion For District Award

Monroe Fuchs was named the outstanding Lions Club member in District II S3 and presented the Reasonover Award at the annual District banquet in Austin Monday night.

Milam County Lions dominated the banquet at the Villa Capri winning 4 top awards for the past club year. The district includes 48 clubs with a membership of over 2,000.

Rockdale Lions Club was named the outstanding large Lions Club in the District and Milam Club was honored as the outstanding small club. And Rockdale's queen candidate, Judith Ashurst, was selected District Lions Club Queen.

Rockdale Lions also received an award for the most new members. This is their third membership award in the past 3 years.

Winston Patton of San Marcos, District Governor, presented the district award to Fuchs and commended him for his all-around participation in local Lions Club activities. Fuchs is also outgoing president of the Cameron Lions. of Mr. and Mrs. Johnny Graham, of Mr. and Mrs. Jhunny Graham, represented the Cameron Club in the Lions Queen Contest.

## Baylor Graduates

### 6 From Milam Area

Norvell Barbee Barrett, son of Mr. and Mrs. Barbee Barrett, Route 1, Cameron, received a BA degree from Baylor University during commencement exercises May 28 in Waco.

Barrett was a mathematics major and honor student at Baylor. Other area graduates and their degrees are: Lydia Jeannette Foreman, BS in N, daughter of Rev. and Mrs. J. M. Foreman, Rockdale; Perry Dean Harbour, BBA, son of Mr. and Mrs. B. F. Harbour; Rogers, Roselyn Jo Wentreck, BA, daughter of Mr. and Mrs. Joe E. Wentreck, Route 2, Rogers; Charles Richmond Ford, BBA, son of Mr. and Mrs. C. R. Ford, Calvert; Eugene Marshall III, BBA, son of Mr. and Mrs. Eugene M. Gibson Jr., Calvert.

## Trinity Lutheran

### VBS Starts Monday

The Trinity Lutheran Church will have Vacation Bible School June 14 through June 25 from 8:30 to 11 a.m.

Classes will include Kindergarten, Primary, Junior and Junior High.

The material and program will have special emphasis on prayer.

## Young Farmers Elect Officers At Bar-B-Q

Cameron Young Farmers reviewed their first year as an active organization at a barbeque Tuesday night at the Byron Wise home.

Young Farmers also elected officers for the coming year: Clifford Angell, president; Tommy Chamberlain, vice president; Gene Klein, secretary; Kenneth Hollas, treasurer; Byron Wise, reporter.

The Young Farmers organized last year with 11 members. The group has grown to 34 members and in addition to educational programs, their meetings include projects such as studying recreation needs in the community. They also plan to select the area's outstanding young farmer to represent them in state competition.

## Summer Program Set For Retarded Youth

Plans for a summer recreation program for mentally retarded children were formulated Wednesday night during a meeting of the Milam Assn. for Retarded Children (MARC), the Rev. David Erskine, chairman, announced.

The meeting of the new county organization was held at the Rockdale State Bank community room. Tentative plans call for the summer program to start with a 10:15 a.m. meeting on June 14 in the special education classroom at the Rockdale elementary school.

Rev. Erskine said that preliminary planning calls for swimming sessions three days a week and classroom work twice a week. He said the program is county-wide, and parents of retarded children are invited to have their children attend the first meeting on June 14.

"There is a need for volunteers to help with the swimming program," he explained. "We are especially interested in teenage boys and girls helping with this part of the program." Volunteers may call Mrs. J. B. Jansky at HT 6-2519, or write her at Rockdale.

This organization (MARC) meets every first Wednesday at 7:30 p.m. in the community room of the Rockdale State Bank. Everyone is invited to attend at any time.

Phosphorus, an essential constituent of the human body, is a deadly poison in its pure form.

## Preparation Day For VBS Friday

Preparation Day for Vacation Bible School at the First Baptist Church will be from 2 - 4 p.m. Friday, June 11, according to Emmet Carson, VBS director. A joint worship program will be followed by enrollment in departments, a parade and refreshments.

The 2-week school will be June 14 - 25 from 8:30 to 11:30 each day. This will include classes for 3 through 12 year olds. A Youtharama for ages 13 through 16 will be held during the same dates from 7 to 9 p.m.

Parents night will be June 27 when pictures of the parade will be shown.

Rev. James Leftery will be Vacation Bible School principal.

## Maler Attends UH Science Institute

Robert B. Maler of Cameron is among 32 secondary school teachers from five states participating in an Earth Science Institute sponsored by the National Science Foundation at the University of Houston June 8 to July 16.

The institute is conducted by the UH department of geology. Its objectives are to provide an understanding of earth science and an awareness of the challenging problems of our planet, to discuss concepts for classroom teaching and demonstrations, and to teach recognition and classification of minerals, rocks and fossils.

## Yoe Graduate Earns Degree At U of H

Annette Dodd McCollum, daughter of Mr. and Mrs. G. A. Dodd of Route 2, Rosebud, received her Bachelor of Science degree in the graduating exercise of the University of Houston held Friday night, June 4, on the campus. There were some 1,100 receiving degrees.

Mrs. McCollum majored in Home Economics with a minor in Secondary Education and is receiving her Provisional Home Economics Teaching Certificate from the Texas Education Agency. She is a 1961 honor graduate from Yoe High School.

## Between 17 - 65? Fish Permit Required

The overhead on fishing spurred sharply according to the last Texas Parks and Wildlife Dept. arrest report showing 434 tags in one month for fishing without a license.

J. B. Phillips, coordinator for law enforcement, said the total was one of the largest on record.

Conservation Supervisor Charles Burnette of Tyler said his wardens staff in 47 counties issued 329 tickets in one month, mainly for fishing without a valid fishing license.

Basically, all persons over 17 years of age and under 65 years of age need the \$2.15 fishing license. Everyone using a casting rig, or winding device, and not fishing on their own land are required by law to have a license on their person while fishing.

## Summer Baseball Program Starts For Little League

Cameron's summer baseball program for Little League started Tuesday, June 1, with the Indians defeated the White Sox 14-0. Winning pitcher was Timmy Tucker, losing pitcher, George Reyes. Timmy Tucker also hit a home run for the Indians.

The Yankees defeated the Bears 7-6 Thursday, June 3. Dale Schilgut scored a home run for the Yankees. Winning pitcher was Robert Brashear, losing pitcher, Mike Darilek.

The Colts defeated the Cardinals 3-2 Friday, June 4. Winning pitcher was Ernest De La Rosa, losing pitcher was Cliff Cryer.

The Bears defeated the White Sox 11-4 Monday, June 7. Jesse Reyes hitting a home run for the Bears, Mike Darilek was winning pitcher, George Reyes was losing pitcher.

HAVE a BALL

of ice cream or sherbet with Dr Pepper

Frosty PEPPER—always a fun-blend with any flavor! Take your choice!

Go ahead! Lose your head. Have a ball—of ice cream or sherbet with sparkling Dr Pepper or Diet Dr Pepper. Happy result: fun-filled, flavor-filled Frosty Pepper—with lift as lighthearted as laughter. Tradition has had vanilla ice cream hobnobbing with Dr Pepper—and with good cause. But shatter tradition! Be inventive. Put in two flavors of ice cream or sherbet. Or mix 'n match 'em. Invent a color scheme—a taste dream. See how many ways Frosty Pepper can be so delicious. Have a ball!

**Shell Oil Drills**  
**Toward New 16,000**

**Level Near Gause**

The Shell Oil Company No. 1 Nell Ross, already the deepest wildcat ever drilled in Milam County, was drilling ahead and was at 15,068 feet at last report on Saturday. It was drilling on a 16,000 foot revised permit. Reportedly the Ross, which is located about four miles south-west of Gause, had Schlumberger tests run on it late last week around 15,000 feet. But since Shell is drilling its deep Smackover try tight, no information about the findings is being released. In shallow drilling activity in the Rice Schrodhouse area, the Brown & Smith Oil Company of Houston was completing its wildcat, the No. 1 Henry Pattillo, as an oiler and putting it on pump. Overflows from the San Gabriel and Little River have continued to halt completion of an electric power line to two shallow wells the Oxford Oil Company drilled last month on the Tumlinson Estate lease in the old Minerva field, and the tests are still waiting to be put on pump. Storage tanks were moved in just before the flooding conditions started.

**Howard Chevrolet**

**Continues As Usual**

Howard Chevrolet and Implement Co. is continuing to operate with business as usual, owner Max Howard told The Herald this week. He said that new cars and various automotive services are being offered at the Cameron auto agency.

**SAN GABRIEL-**

By Mrs. H. H. Linke

Vacation Bible School began Monday morning at the San Gabriel Baptist Church following preparation day Saturday. This will be a standard 10 day school with classes beginning each week day at 8 a.m. until 11 a.m. The church extends an invitation to you to come if you are between the ages of 3 to 16. Remember the date - June 7 to June 18.

Mr. Harry Gabill suffered a light stroke at his home Friday. At this writing, he seems to be slightly improved.

The Rev. W. R. Parmer and family spent the weekend in Bennington, Okla., where his only brother, Dean Parmer, was ordained to the ministry by the Baptist Church there. Rev. Parmer brought the ordination sermon.

Judy and Larry Henry, Donna and Jo Ann from Fort Worth are on vacation and have been visiting her parents, Mr. and Mrs. H. W. Clark and his mother, Mrs. Joe Henry in Rockdale.

Bobbie Limmer of Pasadena is spending two weeks with her grandparents, Mr. and Mrs. Buddy Limmer.

Dr. Arthur K. Tyson, president of Mary Hardin-Baylor College of Belton, filled the pulpit for both services at the Baptist Church Sunday in the absence of the pastor.

Mary Jo Sutton and children, Jeff, Ray and Cheryl of Houston visited Mr. and Mrs. Hugo Linke Sunday afternoon.

Jim and Kelley Clark of Houston spent from Friday until Sunday visiting their grandmother, Mrs. Bill Clark, and also their other grandfather, Mr. Paul Graves. Their parents, Mr. and Mrs. Billy Clark, came after them Sunday.

Weekend guests of Mr. and Mrs. Howard Fulcher were Margaret and J. D. Caffey and Mr. and Mrs. Howard Fulcher Jr. and family of Houston. Also Granville Bolton of Houston spent Saturday with them.

Mr. and Mrs. Richard Heine attended confirmation services for Peggy Achuth at St. Johns Lutheran Church Sunday morning.

**WELLS** —

Continued From Page 1

"It becomes apparent," he emphasized, "that to be successful with an industrial foundation, the whole community must in effect go into the business of becoming a desirable location for new people and capital investment."

Wells said the purpose of the meeting was to determine if the community wants to make the effort and "if so, how are we going to do it?"

Then he introduced the panel of speakers.

**LAW** —

Continued From Page 1

human thought.

"TWO - They must be conversant with the important problems and aspirations of our society."

"THREE - They must have a clear sense of direction and a constant rigorous evaluation program."

Law told his audience that he spoke as a member of the Cameron School Board, but not for all the board members.

And the School Board official noted that residents residing in communities around Cameron realize their dependence on Cameron, but that Cameron "is totally dependent on the peoples of the surrounding communities."

## MURRAY GO ROUND

By Tom Murray

### KNOCKING AROUND:

It is much too early to tell precisely what happened in the Roy Hofheinz-Bud Adams feud over Houston Oiler rental of the Astrodome.

Some caution can be thrown on the waters, however.

When Jack Gallagher, the talented Houston Post pro football expert, wrote: "Big dogs hunt alone," surely he meant that as a two-way street.

For Hofheinz, the big Bear of the Houston Sports Association, is tending with a slightly tougher personage than Little Red Riding Hood.

Bud Adams, Houston's second-most powerful sports entrepreneur, is a big dog, too. Hofheinz but be strong-willed and iron-fisted but ol' Bud can play that game.

Upshot of the squabble could be an advantage to South Texas football fans. For there is little doubt Hofheinz will hook up with the National Football League to fill

dates left when Adams took his Oilers to out-of-date Rice Stadium.

It would be a dirty shame for the greedy NFL to move into Houston's lush sports market now, when those snobby characters refused to take a chance on the Texas giant five years ago.

Professional teams are in the entertainment BUSINESS, however, and the fan is going to watch the best for his shrinking dollar. Right now, the NFL is accepted as the best, whether it is or not.

Adams, by the admission of some inside his own organization, has run his Oiler American Football League entry in a very unbusinesslike manner. The fans suffered, the team collapsed, stars quit signing and who knows perhaps the HSA went shopping for a better renter.

If the NFL does come in, Bud had best have a first-class operation or things could get tighter than a whiskey-drinking midget.

Gallagher believes Houston can support teams from both the AFL and NFL. That is probably correct but only if the teams are both operated as entertainment businesses.

The team run like a kid's toy, with coaches hired and fired by the month, will be run out of town.

Astro fans are going to like what they see when their dandies return to the Astrodome... when Paul Richards used Our Roy's money - how's that for a switch? - to lure Jim Gentile from Kansas City, he completed one of the quickest overhauls a major league baseball team ever underwent...

Now, with Big Jim, who hits the ball as savagely as Hank Aaron, the Astros can put a reasonable facsimile of a big league batting lineup on the field.

An outfield of Lee Maye, Walter Bond, and Jim Wynn can worry any pitcher. Throw in Rusty Staub and Joe Giamas as pinch-hitters and you are not naked of power.

Third-baseman Bob Aspromonte and Gentile at first give the Astros two home-run hitters in four infield positions. Little Joe Morgan at second can hit 'em, too. Catcher John Bateman has as much power as any receiver in the National League and Ron Brand is beginning to whale heck out of the ball, too.

When Eddie Kasko recovers from that knee injury, Houston recovers another artistic bat, with power.

A good-hitting team, which Houston can be, needs that one explosive bellow, and Gentile can certainly be the man.

The Astros have potential power, great speed, good defense and they've always had exceptional pitching. Now, if they were just in the American League.

# Outdoors In Texas CCC 35th Golf Tourney Sunday

By Vera Sanford

Did you ever stop to think how the unusual incidents that occur while you're fishing make it such a fascinating pastime?

Early one morning, I went out on the Pedernales River for a fishing expedition with Mike Rogers of Austin. He is an old timer at this fishing business and has plenty of angling know-how.

We put in at Tatum's Place. Mike knew where the bass were and went right to the hot spots.

In a couple of hours I had eight nice blacks. He had none.

When we got home I called Sam Wood, Capitol correspondent for the Austin and Waco dailies. We'd been wanting to fish together for some time. When I told him I knew where we could land some nice blacks he was ready and rarin' to go.

So we set sail before daylight the very next morning. I pointed out the first spot where I had been successful. I cast out, got a strike, lost the fish. Sam cast into the identical spot and brought him in. This happened repeatedly.

In short - Sam caught eight nice bass, I caught none.

Sam says I am the best guide he ever had. I'd already said the same about Mike.

Anyway, so goes the life of a fisherman.

I'd been out with some of Austin's top anglers - such as Jim Riddie, to whom eight pound blacks are no longer a thrill. Also, Jim Brown and Jackie Hewlett, both of whom practically live on the water. All of these fishermen have copied many Bass-of-the-Month awards. Yet I've outfished them... on occasions. (Every dog has his day, they say!)

On the other hand, I've taken fishing trips to the lake - fellows who never ever have tossed a lure in the water - including numerous youngsters - and they have skinned me all hollow.

As I said in the beginning - it's the unusual incidents that make fishing fascinating. You just can't tell what will happen on any trip out.

It's a long-standing adage that after a couple of casts in the same spot, without a strike, you'd better move on. Yet I went down to the lake one day... just to practice casting... and came up with a nice two pounder on the eleventh cast into the same spot.

Another so-called rule is that if a fish is hooked - and gets off - you may as well move on to another location because he will not hit again - at least for now. Maybe so. But we've cast again and have come up with a keeper many times. (As Sam Wood did on the trip mentioned earlier.)

It could be that another and entirely different fish hit that second time. Anyway, lots of anglers move on after one catch. My feeling is that fish travel in groups. Where there's one, there's another.

Apparently there just "ain't" no firm and fixed rule in this game.

Of course the incident that hares the daylight out of any fisherman happens when a big bass hits a top water lure just as the angler is about to lift the bait out of the water after a long cast.

Here's a fisherman who already has "given up" - then WHAM - right alongside the boat the fish takes it. Oh boy! couldn't be any more startling - unless it happened at midnight.

Early one bitter cold morning Outdoor Writer Hugh Williamson and I were minnow fishing inside a baited dock at Mountain View camp near Spicewood, on Lake Travis.

Suddenly Hugh had a strike. Before he could get his reel in motion, I too had a hefty nibble. Finally after pumping away with bouncing rods and reels we both came up with, of all things, the same fish. It was a five pound channel cat that took both baits.

An unusual incident to say the least!

Which reminds me of the time Outdoor Writer Ray Swan, of the Corpus Christi Caller Times, took yours truly bay fishing in the Gulf.

We both got strikes and yelled for the landing net at the same time.

Roy flipped his flounder into the boat while I was still pumping mine to the top.

Then just as my fish surfaced it opened its mouth and spit out the bait. There it lay for a second or two - just long enough for me to whip the bait right back at him. Believe it or not he struck again. And I brought in a flounder. Roy said, "I've never seen that happen before!"

Anyway - who says they won't hit again?

Speaking of the Gulf... one day Sid Richardson and I were bay fishing for trout just a short distance from his Redfish Motel, south of Raymondville. I was casting artificials and Sid was using live shrimp and a popping cork.

When Sid's cork went under I reeled in and grabbed the landing net. I could see the trout and it was a big one. But Sid said, "It's small - I can handle it."

But an amazing thing had happened. While he was reeling in, a large fish swallowed the smaller one.

Result - as Sid lifted his catch from the water the big fish opened its huge mouth and - not being hooked - it slipped quickly back into the Gulf. This of course still left the smaller trout to adorn Sid's stringer.

Guess the moral here is to use a net every time.

If you forget the net, then you'd better fish with a buddy who will give you the shirt off his back.

You'll understand what I mean after I tell you of an incident that happened when my son, Sandy, tied onto a five pound, nine ounce black on Lake Travis. Fishing with him were two young

The Cameron Country Club 35th Annual Golf Tournament has been scheduled for Sunday, June 13. Originally set for the weekend of May 16, the tournament date was postponed because of heavy rains in May.

"The rains have put the golf course in excellent shape for our tournament," said Dr. C. G. Swift, tournament chairman, "and we are still looking for a good turnout."

Cameron Individual Golf Tournament is the oldest in this area and usually draws golfers from over Texas. A record number 151 participated in the one-day competition last year.

Tournament play will begin at 7 a.m. Sunday and will be a blind bogey tourney. Some flights will be played Saturday afternoon. Dr. Swift said.

The number of flights to be played in the 18 hole match will be determined by the number of entries. Prizes will be given in all flights.

Entry fee will be \$5 which includes liquid refreshments on the golf course and a barbecue dinner. Nongolfers will be charged \$1.50 for the barbecue dinner.

About 20 Texas towns are expected to be represented in tournament play. Last year entries came from all over the state with Waco golfers taking the championship. Ed Sherry and John Jacobs shared medalist honors by firing 72's in the 18 hole tournament. Some fine golf has been played

on the Cameron course.

In 1963 a hole-in-one was shot for the first time in the tournament. Bud Turner shot the hole-in-one on the 180 yard number nine hole on his first round. In 1962 Charles Luster of Hearne took the championship with a total of 71.

Probably the best tournament score was in 1964 when Johnny Johnson of Texas A&M and George Smith of Hearne shot 69's to tie for the championship.

Serving on the tournament committee this year with Dr. Swift are Lee Marek, Judge W. C. Wallace, Ed Manning and M. C. Ponder.

## Rice Church Plans Homecoming Sunday

The annual homecoming at Rice Church will be Sunday, June 13.

A welcome has been extended to friends of the community and former residents to come and bring a basket lunch.

The name arsenic comes from the Greek word for "bold," from its action on other metals.

Four rare metals are named for the Swedish town of Ytterby - erbium, terbium, ytterbium and

Baltimore has 270 piers on the 40 miles of waterfront in its harbor.

## Minor Leaguers Complete First Week Of Loop Action

### Giants-White Sox June 1

Hill Culpepper and Greg Sheguit were the winning battery for the Giants in their opening game with the White Sox. The Giants scored 23 runs to the White Sox's 4. Losing pitcher for the White Sox was Ronald Mikulec.

### Yankees-Lions June 3

The Yankees defeated the Lions 4-2 in their season opener Thursday night. Kenny Leonard was the winning pitcher with Ernie Ray Provasek catching. Losing battery was Fred Rangel, pitcher and Gene Kaprova, catching.

### Hustlers-White Sox June 4

Friday minor league action saw the Hustlers shut out the White Sox 19-0. Craig Frienel was the winning pitcher and hit the only home run of the game. Randy Sapp was catcher. Ronald Mikulec took the loss for the White Sox.

### Giants-Yankees June 7

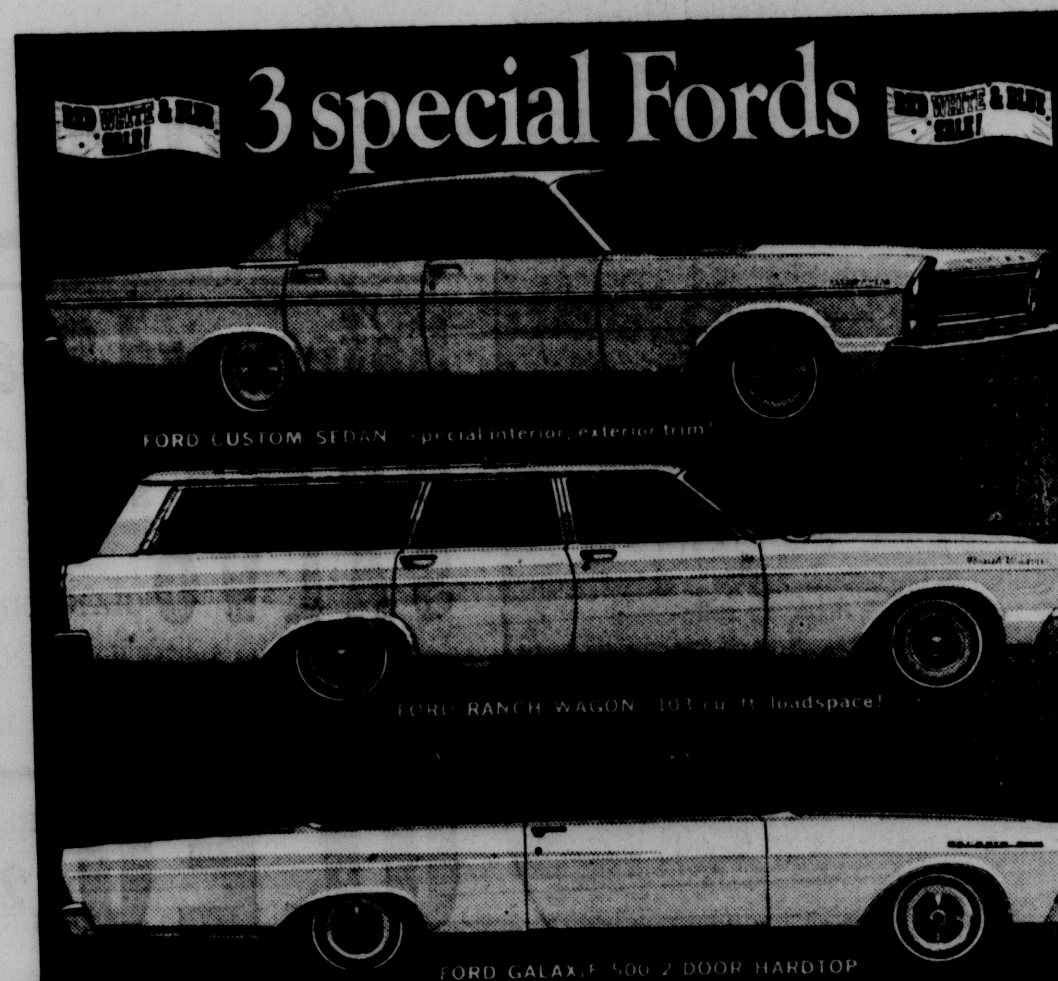

David Hollas drove the Giants to their second victory of the season hitting one home run and knocking in three others for a 4-0 ball game with the Yankees Monday night. Hollas was on the mound for the Giants and Mike Young behind the plate. Kenny Leonard was losing pitcher. Hollas drove in two runs on a triple in the first inning and hit his home run in the third inning with one on. He got another triple in the fourth inning.

In Texas after golf beer's the one... for good taste, good fun

After a hard-played 18 holes, it's good to settle down on a soft chair in the club house and add up the score with friends. What better time for the drink that scores with almost every golfer - cool, thirst-quenching beer? Yes, beer's great to relax with, great for refreshment, great for taste. So whatever your sport - boating or baseball - swimming or tennis - relax afterwards with the zestful taste of beer.

Mr. and Mrs. John Mikolajewski of Hempstead, announce the engagement of their daughter Bernice Patricia to Rudolph Joe Hrachovy, son of Mr. and Mrs. Charlie Hrachovy of Cameron. Miss Mikolajewski is a graduate of Hempstead High School. Mr. Hrachovy is a graduate of Yoe High School, Cameron, and is employed by Kash-Karry Stores of Austin. A November wedding is planned.

## Double Ring Ceremony Unites Miss Shirley Biskup, Mr. Krenak

Miss Shirley Jean Biskup and Mr. Charlie Krenak Jr. were married Saturday at 10 a.m. in St. Monica Catholic Church. Parents of the couple are Mr. and Mrs. Emil Biskup and Mr. and Mrs. Charlie Krenak Sr., all of Cameron.

Rev. Paul McCallum performed the double ring ceremony before an altar decorated with baskets of white gladiolus.

Given in marriage by her father, the bride wore a gown of white peau de soie fashioned with a bell-shaped skirt, long sleeves and a train. A crown of seed pearls and crystals held her finger tip veil. She carried a cascade bouquet of carnations and orchids.

Honor attendants were Miss Ly-

dia Krenak of Temple and Mr. Stanley Hromick Jr. of Fort Worth. Bridesmaids were Misses Elizabeth Hrecek of Austin, Frances Thompson and Bernda Hux of Cameron. The bride's attendants wore street length dresses of rose peau de soie with matching head pieces and carried carnation bouquets.

Groomsmen were Wally Short, Martin Mitchan and Pat Dillon. Ushers were Gary Biskup and Ronald Williams.

Pink roses decorated Simon George Hall for the reception following the ceremony. Miss Sherry Kubek registered guests.

In the houseparty were Mrs. Rosner, Mrs. Gary Biskup and Mrs. Eddie Meier.

The couple will make their home at 400 East 17th St. in Cameron.

## Bridal Shower In Buckholts Honors Patricia Zavrel

Miss Patricia Zavrel of Buckholts, bride-elect of Marvin B. Green was honored with a bridal shower Saturday, June 5, held in the country home of Mrs. Stanley J. Glaser near Buckholts.

Hostesses for the shower were Mrs. Edward M. Green, Mrs. Stanley J. Glaser, Miss Carolyn von Gonten and Miss Carole Helpert.

Guests were greeted at the door by Mrs. Glaser. Miss Helpert registered the guests at a table laid with a crocheted scarf and accented with a white and yellow floral bouquet.

The bride elect's chosen colors of yellow and white were used in all decorations. The refreshment table, laid with an ecru lace cloth over yellow taffeta, was centered with a miniature bride and groom, standing beneath a white and silver trellis with yellow satin inscription "Patricia Marvin June 26th" in silver.

Mrs. Green, sister of the bride elect, served the cake and Mrs. Kenneth Janicek served the punch from opposite ends of the table. Crystal and silver appointments were used.

Miss von Gonten registered the gifts and Miss Mary Frances Ruzicka placed the gifts. Others assisting in the houseparty were Miss Becky Shenkir, Miss Becky Beckhusen, Mrs. Joe Glaser and Mrs. Edwin F. Fischer.

The hostesses presented the bride-elect and special guests with corsages of white carnations entwined with yellow ribbon. Special guests were Mrs. Ladis J. Zarvel, mother of the bride-elect, Mrs. Willis E. Green, mother of the prospective bridegroom, and Miss Denise Green, sister of the prospective bridegroom.

Hostess and co-hostess wore yellow daisy corsages with yellow net and ribbon.

## Shower Honors Anita Crawford

Miss Anita Crawford, bride-elect, of Howard Klement of Rogers, was honored with a bridal shower at Simon-George Hall in Cameron Sunday afternoon.

The bride-elect's chosen colors of pink and white were carried out in the decorations. The refreshment and register tables were covered with lace cloths and decorated with pink and white flowers.

Special guests were mothers of the couple, Mrs. Wayne Crawford and Mrs. Frank Klement, and Mrs. F. J. Kirksey, grandmother of the bride-to-be.

Hostesses were Mrs. Hugo Hollas, Mrs. Louise Klostrom, Mrs. Richard Jistel, Mrs. Hubert Jistel, Mrs. Jerry Klostrom Sr. and Mrs. Katherine Thomas.

The wedding will be held June 12 at 11 a.m. at St. Monica's Catholic Church in Cameron.

## New Evening Circle Meets With WSCS

Members from the day circles of WSCS met with the prospective members of the night circle Thursday night at Fellowship Hall of the First Methodist Church.

Mrs. Mary Tucker, WSCS president, welcomed the new group into the Womens Society.

Mrs. Morris Evans, a circle chairman, led the program on "A Disciplined Life." She was assisted by Mrs. McCall and Mrs. Bowling.

Punch and cookies were served during the social hour.

MRS. EDGAR FRANKLIN GOTCHER

## Candle-light Ceremony Unites Miss Mayfield, Edgar Gotcher

Miss Glenda Aileen Mayfield and Edgar Franklin Gotcher were united in marriage at 8 p.m. Saturday June 5, at the Val Verde Baptist Church in a candlelight ceremony. The bride is the daughter of Mr. and Mrs. C. O. Mayfield Jr. of Route 1, Buckholts. The groom is the son of Mr. and Mrs. H. R. Gotcher of Rogers.

A seven branch candelabra on either side of an arch was entwined with English ivy and daisies and formed a background for the ceremony performed by Rev. Edward Mercer. Wedding music was furnished by Wilbur Jackson, soloist, Mrs. Jackson and Mrs. Ralph Smith, pianists.

The bride was given in marriage by her father. She wore a gown of white silk organza. The slender silhouette dress had material of re-embroidered alencon lace appliques jeweled with seed pearls and was fashioned with a capelet collar falling into a graceful length train. Her elbow length veil fell from a crown of flowers enhanced with seed pearls. The bride's bouquet was of orchids surrounded with white carnations and English ivy.

## Miss White Feted At Bridal Shower

Miss De Laine White, bride-elect of Jimmy Burgess, was honored with a miscellaneous shower Saturday evening at the Little River Baptist Church.

Honored guests were parents of the bride-to-be and her fiancé, Mr. and Mrs. Harry White of Jones Prairie and Mr. and Mrs. Woodrow Burgess Sr. of Rockdale.

Miss Charlotte White registered approximately 50 guests.

The serving table was laid with a white linen cloth which held a starburst arrangement of white and pink gladiolus. Miss Karen Fontaine and Miss Barbara Jones served cake and punch to the guests.

The wedding date has been set for June 19 at 7:30 p.m. at Little River Baptist Church.

## PERSONAL MENTION

Mrs. Graham Gillis flew to Georgia last week to attend the graduation ceremonies for her granddaughter, Georgia Gillis, at Agnes Scott College.

Mrs. Eard Evers of Cuero has been visiting friends in Cameron for several days. She was the house guest of Miss Clara Thomas. Mr. and Mrs. J. D. Moore visited their son, Franklin Moore, and wife at Iowa City. Both are students at the University of Iowa where Franklin will complete class work for his doctorate degree this summer.

Mr. and Mrs. Alton Fuchs and children will leave this week for Houston where they plan to make their home.

Mr. and Mrs. John Henderson Sr. and the Wells Smiths of Temple spent the past weekend with friends in Schulenburg.

Visitors in the home of Mrs. Hugh Powell have been her nephews, Mr. and Mrs. J. H. Butler from Altadena, California, Mr. and Mrs. P. E. Butler and David from Shreveport, La., Mr. and Mrs. Rennie Scarborough from Conroe, Texas, and B. L. Scarborough from Anaheim, California. Also her children, Mr. and Mrs. R. C. Shelly and children of Waco, Mr. and Mrs. N. R. Laird and children of Pasadena, Texas, Mr. and Mrs. Mack Nicholson and children of Houston and Mr. and Mrs. Bobby Hugh Powell and Karen of Austin.

Mr. and Mrs. George Hollas and children left Monday for a vacation trip to St. Louis, Mo., where they plan to visit her mother and brother and family. They will visit former Yoe High Coach John Roberts and Mrs. Roberts in Tulsa enroute.

## St. Monica Women Discuss Projects

St. Monica Ladies and Christian Mothers held their regular meeting at Simon-George Hall last week.

Reports of Ladies Social was given and the group discussed making communion dresses for the Holy Fathers store room.

Mrs. Albert Michalka, president, reported on the retreat in June.

MISS LENORA MALONE

## Lenora Malone To Wed Mr. Krueger

Mr. and Mrs. Wesley Malone of Milano announce the engagement and approaching marriage of their daughter, Lenora Ann, to Mr. Douglas Krueger, son of Mr. and Mrs. August Krueger of Teylor.

Miss Malone is a graduate of Southwest Texas State College where she was a member of Kappa Lambda Kappa and the Home Economics Club. Mr. Krueger is also a graduate of Southwest Texas State College.

A July wedding is planned.

Mr. and Mrs. Arvin L. Newton of Route 3, Winnsboro, Texas, announce the engagement and approaching marriage of their daughter Arvinell to Jimmy Lawrence McClaren, son of Mr. and Mrs. Lawrence McClaren, Route 3, Cameron. The ceremony will be 3 p.m. July 11 at the First Methodist Church, Winnsboro.

## BIRTHS

To Mr. and Mrs. Freddie Capers of Cameron, a girl, Betty Delores, 4 pounds 1 ounce, born 3:25 p.m. June 5 at Newton Hospital.

To Mr. and Mrs. Ambrosia Liguera of Route 2, Temple, a boy, Richard Jimmy, 8 pounds 9 ounces, born 3:45 p.m. June 5 at Newton Hospital.

To Rev. and Mrs. Rogelio Martinez of Cameron, a girl, Febe Ann, 4 pounds 8 ounces, born 5:45 a.m. June 6 at Newton Hospital.

## 117 Attend Belmena

### Homecoming Sunday

The Belmena Homecoming was held Sunday, June 6, at Cameron City Park with 117 guests registering during the day. Guests reported a "Wonderful day renewing old acquaintances."

The Belmena Homecoming will be held on June 6 each year.

## Learn Danger Signals For Home Appliances

### COLLEGE STATION

Learn the language of your electrical appliances and you may prevent a fire, appliance damage or personal injury.

W. S. Allen, Extension agricultural engineer, Texas A&M University, lists five warning signals, that if heeded, could cause a lot of trouble.

1) Binding or annoying "on off" periods in the operation of an appliance usually means there is a loose connection. Perhaps it is only a loose screw but repair it before a more serious problem occurs.

2) "Tingle" or slight shock when handling an appliance or switch tells you there's trouble brewing. Inspect for loose wires or poor insulation. Or the appliance may need a "ground wire" connected.

3) Crumbling of rubber insulation on lamp or appliance cords can eventually expose electric wire which can short-circuit, or make metal lamp bases a serious

shock hazard.

4) Dimming of lights or slowing of heating appliances when motors start indicates that the circuits are overloaded. Overloaded circuits means overheated wires - a dangerous fire hazard.

5) Blown fuses or tripped circuit breakers are also signals of overloaded or shorted circuits.

Be sure the fuse is the right one for the size of wiring. If the fuse will let more power through than the wiring can safely carry, it is not a safety device.

Overheated wires, damaged motors and fires can be caused by using the wrong fuse or a penny-repaired fuse.

These five warning signals are more than mere annoyances, Allen said. They are real dangers which only the foolish will ignore.

When you get the signal, discard and replace worn cords, and have outlets, switches, and sockets repaired. If you aren't sure of your own repair techniques, call on your electrical repairman, advised Allen.

If the need for repairs is a constant and continuing problem in your home, the reason may be old and inadequate wiring.

Check with your utility residential wiring specialist or a competent electrician. They can give you the pros and cons, explain new developments, and tell you what an adequate wiring system for your home would cost, Allen said.

## 15 Rural Traffic

### Accidents In May

Leroy Broadus of the Texas Highway Patrol Cameron, released the rural traffic accident summary for the month of May 1965 for Milam County.

During May Milam County recorded a total of 13 rural traffic crashes resulting in no deaths, injury to 4 persons with a combined property damage amounting to \$5,485.

For the year Milam County has recorded 65 rural traffic crashes resulting in the death of one person, injury to 29 persons, with a combined property damage amounting to \$33,470.

petent electrician. They can give you the pros and cons, explain new developments, and tell you what an adequate wiring system for your home would cost, Allen said.

## Grasshoppers Threat To Crops

By Charles W. Henson

Grasshoppers are beginning to appear in many areas of the county, according to recent reports. Grasshoppers can become serious pests of rangeland as well as cultivated crops.

Grasshopper control should start when hoppers become noticeably abundant. Determine the location of threatening infestations of young grasshoppers in relation to the location of cropland. Look for signs of infestation along road sides, in idle land bordering cultivated fields and in the fields themselves. Grasshoppers that damage row crops usually hatch in field margins. Early treatment of such areas before the young hoppers move from their hatching grounds will greatly reduce the amount of acreage that might

otherwise need treated.

Grasshoppers can be controlled by applying insecticides in the form of sprays, baits or dusts. Sprays give higher initial kills than dust and continue to kill over a longer period of time. As a spray, 1 qt. of 5 lb. Malathion, 1/2 - 1 pt. of 2 lbs. Aldrin, 1-3 2-3 pt. 1.5 lb. Dieldrin or 1 qt. of 6 lb. Toxaphene should be used per acre. From 1-3 to 1/2 more poison must be used per acre as a dust to obtain the same degree of control as with a spray. Such treatments will remain effective one to three weeks against grass hoppers moving into the treated area.

## BUCKHOLTS NEWS

By Mrs. J. W. Meyer

### BUCKHOLTS

L. D. James, son of Mrs. Ed Jurca, reported at Cameron Monday for induction in the Army. Afterward he will go to Dallas for his assignment.

Weekend guests of Mr. and Mrs. S. H. Posival have been their children, Mr. and Mrs. Woodrow Hester and Cindy of Temple, Raymond Posival of Dallas and Mr. and Mrs. John Henry Mitchell and children, Carolyn and Dan of Cameron.

## Organized Community Meets Needs...

"... Make a list of the things they have and things they don't have and go to work..."

That is the substance of Reagan Brown's advice to rural communities which desire to move with the changing times. Those were the words he used in recommending the possibilities of the Texas Rural Development Program to various Milam community leaders.

Numerous Milam communities have moved in this direction in the past 18 months with the construction of new water systems, which invariably are followed by additional new home construction and general community improvement.

It is the old matter of pride that causes people to fix up and improve, though it may not immediately add income or serve a practical purpose.

This proposition even may be changing, however, in that the minimum requirements and interest of most people far exceed what they used to be.

Industry, certainly, seeks location where more than the minimum needs of employees are met. The bromide of "good churches, good schools and friendly people," no longer is enough.

Experts tell us that educational facilities, recreation and cultural interests must be provided to secure a firm foothold in community development of the future. In the light of exploding suburban population, the federal government is even looking into the construction of complete new cities to meet needs,

however excessive they might appear. Milam communities are moving with progress with the Minerva, Milano, Gause, Baileyville and North Milam Water systems. Buckholts already has their system and recently has paved some downtown streets. Some of the rural communities have been installing automatic lights along streets. Buckholts also has done this.

New highways in every section of the county make these communities more accessible to Cameron and other towns.

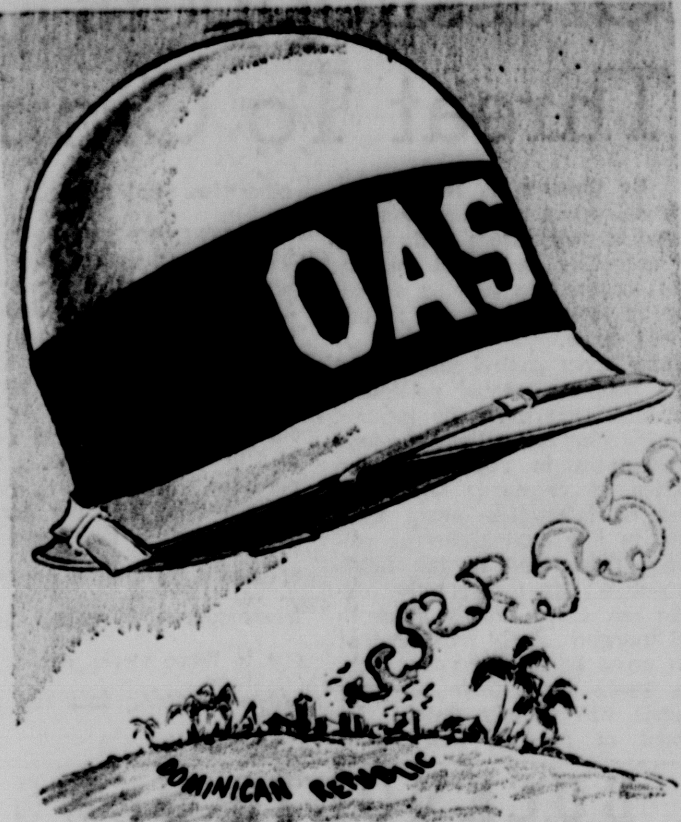

These factors show the understanding with which challenges like Mr. Brown's is being met.

As the refinements continue, such as additional playground equipment in Cameron City Park, Cameron and these other communities will become more attractive to their own residents and those searching for a place to live.

It is most conceivable that a downtown improvement program in Cameron, once undertaken in 1959, could create a whole new atmosphere and a whole new attraction to the buying public and industrial prospects.

These are the things Mr. Brown proposes, in whatever scale applies to the small town or community, which will determine the success of the new rural community.

He makes it quite clear there need be little difference between town and rural life except a degree of material sophistication. And even that, through the efforts of organized communities, is changing.

Dateline Austin

## Speculations On Coming Elections

By Vern Sanford

With the close of another session of the Legislature, permanent state capital inhabitants turned happily to one of their favorite indoor pastimes - speculating on the next elections.

Atty. Gen. Waggoner Carr so far leads most lists of likely Democratic candidates to oppose GOP Sen. John Tower next year, although Congressman Jim Wright of Fort Worth would like to be his party's choice for the race.

Carr, in the past, has denied any real interest in going to the Senate. He has concentrated his plans on a race for governor after John Connally vacates the office, door on a Washington career at this stage.

He cannot afford to, with odds favoring Connally's remaining in office for another term - and another term could be four more years, if the constitutional amendment passes to double the elective span of statewide officials.

If Carr runs for the Senate, apparently there will be a big field betting to succeed him in the attorney general's office. At least a half dozen state senators reportedly have their eyes on the job. Of the lot, Sen. Franklin Spears of San Antonio has been the busiest so far.

Lt. Gov. Preston Smith, who makes no secret of the fact he wants to run for governor, most likely will run for re-election in 1966.

Congressional races are shaping up on the assumption the new reapportionment bill will stand up. If it does, Sen. Martin Dies Jr. of Lufkin or Rep. Charles Wilson of Trinity likely will take on Congressman John Dowdy of Athens in District 2.

New District 23 in South Texas (from southern Bexar County to the Mexico border) has drawn interest from State Sen. Abraham Kazen of Laredo, Sen. Walter Richter of Gonzales, Rep. Glen Kothmann of San Antonio and Rep. Wayne Connally of Floresville, brother of the governor.

High sources regard Merrill Connally, Floresville rancher and campaign manager for Gov. Connally, his older brother, as another "distinct possibility" in the District 23 field of candidates. But there is no chance of the Connally brothers opposing each other.

SESSION LAUDED - In an unusual closing address to the 59th Legislature, Gov. Connally lauded it as "The most productive of any in this century."

Governor specifically cited work in the areas of education, public health, finance, water development and congressional and legislative redistricting. He recalled that last January the 59th was faced with "a greater and more varied assortment of problems than any legislature in modern times" and educated predictions were that lawmakers could not solve all of them without one or more special sessions.

Connally disagreed with critics who insist the redistricting bills will be knocked out by federal courts. He thinks the bills will meet the courts' test.

The session closed out calmly, in contrast to most of those of the past. After congressional redistricting was disposed of two days before the quitting deadline, there wasn't much left to wrangle about.

CONSTITUTION CHANGES? - 25 proposed amendments to the Texas Constitution were recommended by the 59th Legislature. Amendments will be voted on in three different elections during 1965 and 1966.

First election is Sept. 7 on the proposal to increase size of the state senate from 31 to 39 members.

Ten amendments will be voted on Nov. 2 they would: - Extend to four years terms of governor and other statewide elected officials now limited to two-year terms;

- Increase state representatives' terms from two to four years;
- Permit full state participation in federal medicare programs;
- Authorize the Legislature to set salaries of the lieutenant governor and speaker;
- Set up an \$85,000,000 student loan fund;
- Authorize \$200,000,000 more in veterans land bonds;
- Require district and appellate court judges to retire at 75 and set up a system for removal for misconduct;
- Expand the investment authority of the public school retirement

system:

- Increase the state property tax from 42 to 47 cents and allocate the extra five cents to college buildings;
- Exempt from the property tax locally a hospital which spends as much as \$1,500,000 a year on care of indigents.

Fourteen amendments on the 1965 general election ballot would:

- Add \$200,000,000 more to the water development fund and permit use for conveyance and associated facilities such as canals or pipelines;
- Expand court of criminal appeals from three to five members;
- Repeal the poll tax;
- Allow the state to hold private funds until receipt of federal matching grants for private groups to use in rehabilitation services;
- Relax residence requirements for voting for president and vice president;
- Authorize regional airport authorities;
- Abolish residence requirements for servicemen to vote;
- Set swearing-in day for state representatives on first day of a legislative session;
- Provide state aid to survivors of firemen and law enforcement officers killed on duty;
- Set up a retirement system for state employees and officials;
- Remove Arlington State College from the permanent university building fund;
- Permit farm land to be assessed only at its agricultural value despite proximity to big city real estate developments;
- Extend terms of conservation and reclamation district directors from two to six years;
- Provide that school district boundaries can be changed without invalidating tax bond issues.

LEGISLATIVE REFORMS - House Speaker Ben Barnes believes power of legislative conferences committees (which wrote at least two dozen of the bills passed in the last week of the Legislature's session) should be reduced. Rank and file lawmakers also should have more to say about how state money is spent, Barnes says.

"There were riders in the last appropriations bill I didn't know were there myself," Barnes admitted. "If you take the rider provision away from conference committees, that would accomplish a lot."

## OLD PHILOSOPHER

Philosopher Tells Big City Mayors Not To Expect Too Much From New Sec. Of Cities

Dear editor:

As I understand it, the mayors of over 300 big cities in the United States are trying to get a new department set up in Washington with full cabinet standing to represent the metropolitan areas and their troubles.

It would be, I understand, a sort of Dept. of Cities, similar to the Secretary of Agriculture.

The mayors argue that agriculture has had cabinet recognition for years, why not cities?

Well now there's nothing wrong with the argument, so long as the big city mayors understand the new department won't necessarily eliminate their problems. What I mean is, take agriculture. Sure, we need a Dept. of Agriculture, don't know how we'd get along without one, but the city mayors ought to be reminded that in the 100 years we've had one the percentage of farmers has dropped from 70 percent of the population to 10 percent. Right now, the farmer and rancher's share of the national income is the lowest of any other group, outside maybe blacksmiths and lightning rod salesmen. And without a Dept. of Agriculture, no telling where we'd be today. Probably out of sight.

Therefore, I'd suggest to these big city mayors that they not go into this new program feeling that if they can just get a Secretary of Cities in the cabinet, their problems will end.

What I mean is, I've tried for years to get the Secretary of Agriculture to do something about the weeds on this Johnson grass farm, the run-down fences, the leaky roof, etc., but from the looks of things, we might as well not even have a Dept. of Agriculture. If the cities can get the Secretary of Cities to come in and patch their bumpy streets and leaky

Port of Baltimore serves 124 steamship lines.

roofs and over-crowded schools, I hope they let me in on the secret.

Yours faithfully,  
J.A.

## YES, SIR, WE'RE STILL SELLING CHEVROLETS

HOWARD CHEVROLET is moving new cars every day and continues to offer a wide range of services for Chevrolet General Motors and all auto service and repair. If you want a new 1965 Chevrolet, stop by and visit with Dean White or Max Howard and discuss the style, equipment and color you want. It's a great year for Chevrolet and we're proud to be selling them.

# Chevrolet

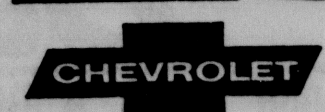

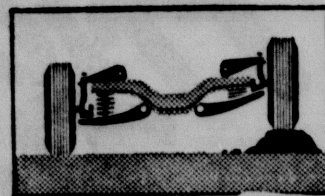

## workpower

"walks" right over bumps and trouble

Independent front suspension takes the "truck" out of truck ride. It smooths rough roads, protects truck, driver and cargo from excessive jolting. And on Chevrolet pickups it's a proved system with millions of miles of user experience behind it. Try it out on one of Chevrolet's great Fleetside or Stepside pickups. It's one of the big reasons that Chevrolet is first choice with pickup users from coast to coast.

Clyde Clements, Pastor  
Teaching 11:00 a.m.

## TAKE YOUR PROBLEMS TO CHURCH THIS WEEK

Millions Leave Them There!

## HOW SMALL, YET HOW BIG

How small a man seems—walking down a lonely road on a rainy day, with gaunt trees towering over him.

How small man is, and how frail in body. The trees in the picture and even the chimneys on the old house will probably long outlive the man.

Yet how big man is—in the things that are not of the body, but are of the mind and soul. God has not made man mammoth. But He has made him potentially great—if he will but accept the blessings given him, and use the tools of Christian teachings.

Man finds in the Church, the encouragement and the instruction to enable him to make from his God-given divine spark something great and enduring—and of benefit to all human-kind.

## THE CHURCH FOR ALL . . . ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a storehouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Day	Book	Chapter	Verses
Sunday	Job	23	1-10
Monday	Job	38	19-38
Tuesday	Psalms	8	1-9
Wednesday	Psalms	39	1-13
Thursday	Romans	8	14-25
Friday	1 Corinthians	2	1-10
Saturday	1 John	3	1-8

## JONES PRAIRIE NEWS—

By Mrs. R. K. Fontaine  
Mr. and Mrs. Bailey Jones and son Jamie of Rosebud and Mrs. Leroy Massengale of Maysfield visited their mother, Mrs. Verna

Jamison, on Saturday.  
Mrs. Nadine Parker of Rockdale was a Saturday night guest of her mother, Mrs. Ruth Burnett, and attended the bridal shower honoring her niece, Miss De Laine White.

Mr. and Mrs. Billy Yager and children of San Marcos were weekend guests of his parents, Mr. and Mrs. E. B. Yager, in Maysfield and attended services at Little River Baptist Church.

Mrs. Verne Pentecost was a visitor in Houston several days last week.

Mrs. Amanda Crook is a visitor in Waco, guest of her nieces, Misses Mary Lena and Olivia Duncan. Miss Mary Lena has recently undergone eye surgery.

Rev. and Mrs. Don Callaway of Fort Worth were Sunday dinner guests of Mr. and Mrs. Ben Massengale.

When air movement is less than one mile per hour it officially is designated a calm.

## BURLINGTON

By Mrs. George Logan

Mr. and Mrs. Paul Olbrich and family and Mrs. John Olbrich were in Houston last weekend and were guests of Mr. and Mrs. Roy Olbrich and other relatives. They attended the ball game at the Astrodome.

Miss Joan Olbrich and others were at the Ball Camp last week and had a nice time.

Mrs. Bill Wunsch and Miss Mildred Wunsch, Mrs. Laverne Ayo and daughter Judy of La Porte and Mrs. David Hartnett and children, Susan, Kate and Mike of Hitchcock came Tuesday for a visit to Mrs. Margaret McAtee. They left for their homes on Friday.

Mr. and Mrs. Herman Meek of Houston were here and at Cameron for several days with relatives. Mrs. Meek was formerly Miss Gladys Jahn.

Mrs. Celia McSherry of Granger visited here for a few days.

SP15-Robert John and wife have come from Germany where he spent four and a half years in service. They are to be here for two weeks. He will be stationed at Fort Sill, Okla.

On Wednesday night of last week SP15-Robert John and wife were honored at a party given by relatives and friends.

Last Sunday evening Mrs. Will Stobner, Mrs. Robert Baring and Miss Willie Mae Stobner of Temple visited Mr. and Mrs. Otto Kelm in Cameron. Other guests were Harry Kelm and two sons, Mr. and Mrs. Walter Kosel of Ben Arnold.

On Sunday night Mr. and Mrs. Will Stobner had the following guests: Mr. and Mrs. Fritz Stobner and Mr. and Mrs. Julius Lange of Wilson.

Staff Sgt. Harry Cholett and family are enroute home from Germany where he has been stationed three years. He will be stationed at Wichita, Kan. They and their seven children came by plane to South Carolina and are coming by car from there.

Mr. and Mrs. Clarence Stepan of Fort Worth visited Mr. and Mrs. J. N. Bowen Wednesday and also visited an uncle, Martin Kraft, in a rest home. They had supper in the home of Mr. and Mrs. Curtis Newman. They visited Mrs. John Stepan who is very ill at Red Ranger.

Mr. and Mrs. Eldon Schonhoef and family attended the wedding of Donald Hengatter and Miss Carol Krcha in a Methodist church in Temple Saturday.

Mr. and Mrs. Herman Placek of Cotulla spent last weekend here with Mr. and Mrs. A. E. Hensel.

## HAPPY KID...

his folks have  
**ELECTRIC AIR CONDITIONING!**

Kids, teen-agers, grown-ups . . . people of all ages and families of all sizes are happier and healthier during the sweltering months of summer, thanks to electric air conditioning.

Electric air conditioning in the home means comfortable temperature around the clock for preparing and eating meals, entertaining, studying and sleeping. It means, too, a cleaner home and that means less housework.

Whether you're about to install your home's first air conditioning system or up-date an existing system . . . make it the best . . . make it electric.

**TEXAS POWER & LIGHT COMPANY**

a tax-paying, investor-owned electric utility

You don't have to like golf to like  
our Buick "Swinging Sales Spree."  
Just driving. (And saving money.)

Proposed legislation to reduce excise tax on new passenger automobiles provides a refund of such tax reduction where a passenger automobile is sold to a retail purchaser after May 14, 1965 and before July 1, 1965, when the excise tax reduction becomes effective. Where a refund is authorized by this legislation, General Motors Corporation will make a cash payment to such a purchaser in the amount of the excise tax reduction.

Enjoy your new Buick now!

## THE FAMILY LAWYER

### SHORT CUT TO JUSTICE

A's car, parked on a slope with the brakes off, rolls downhill and smashes into B's car. To collect damages in court, does B have to prove the law of gravity?

Of course not. If a person had to prove every single fact in his case, lawsuits would last forever and a day. As a short cut to justice, the law allows a court to "take judicial notice" of the obvious. That is, a court may take some facts for granted even if they are not proved in the usual manner.

But which facts are so obvious as not to need proof? What do we know for sure?

The range of judicial notice is enormous. It includes not only basic scientific laws like gravity but also the habits of animals (that mules will kick), the events of history (that the Japanese attacked Pearl Harbor on Dec. 7, 1941), and the essentials of geography (that Missouri is east of the Rockies).

In appropriate cases, courts also have taken judicial notice that telephones are popular, that "OK" means approval, and that women patients don't wear fur coats in the dentist's chair.

True, there are pitfalls. For one

thing, what was sure yesterday may be quite the opposite today.

For example, a modern court would scarcely take judicial notice - as earlier courts have - that most businessmen wear watches in their vests, that ping pong is too hard a game for children, and that beans are baked at home in almost every New England household.

Furthermore, especially in matters of science, it is hard to tell just when a new theory becomes certain enough to justify judicial notice. Thus, it is only within the past few years that courts generally have begun to take judicial notice of the principles of radar.

But by and large, the use of this time-saving device is expanding. This is partly because knowledge itself is expanding, and partly because judicial notice is so clearly based on common sense. As one judge put it:

"There is no reason courts should pretend to be more ignorant than the rest of mankind." A public service feature of the American Bar Association and the State Bar of Texas. Written by Will Bernard.

## Highway Commission Approves \$90,000 For Milam FM Road

The Texas Highway Commission has approved the expenditure of \$90,000 for construction of new Farm to Market Road mileage in Milam County as part of the 1965 FM Road Program, announced Dist. Engr. C. B. Thames of Bryan.

The district engineer said 4.8 miles from the end of FM Road 1445 at Clarkson, northwest to Falls County line will be involved. The work will be under the supervision of Carol D. Zeigler, resident engineer, Hearne.

Work authorized for this county is part of a 911.2-mile state-wide farm-to-market road-building program for 1965 as approved last week by the Texas Highway Commission. The program will include 207 individual projects in 153 counties.

### Positions Open For Texas Game Warden

AUSTIN

The deadline for receiving applications for the position of Texas Game Warden is 5 p.m. June 13, according to J. Weldon Watson, executive director, Texas Parks and Wildlife Dept.

An applicant must be in good physical condition; a high school graduate; citizen of the United States and a resident of the State of Texas for at least one year prior to the date of appointment.

Applicants must be between 21 and 40 years of age inclusive (as of March 1, 1966), be at least 5 ft. 8 in. tall, without shoes, and must weigh at least two but not more than three pounds for each inch of height.

The appropriation bill as passed by the 59th Legislature provides a salary increase which would put beginning game wardens on a competitive basis with beginning other agencies. Said Watson, "this progressive move should encourage young men to seek a career in wildlife conservation."

Requests for applications may be sent to the Texas Parks and Wildlife Dept., John H. Reagan Bldg., Austin, Texas 78701.

ties to cost an estimated \$23.5 million.

The action brings the total designated FM system to 37,779 miles of which 35,026 had been built by April 30. Another 773 miles were under construction on that date.

The farm-to-market program is an annual road-building undertaking of the Texas Highway Dept. as provided by state law. Total cost of the 1965 program is approximately one-half million dollars in excess of the basic statutory requirement of \$23 million.

The Texas farm to market road system is the most sophisticated and highly-developed rural highway network in the nation. So extensive is the Texas FM-RM system that it is equivalent to 1 1/2 times the total combined mileage of the entire state-maintained highway systems of the six New England States - Maine, New Hampshire, Vermont, Massachusetts, Rhode Island and Connecticut.

More than 8,000 buses carry nearly 456,000 Texas youngsters to classes over more than one-half million miles of streets and highways each school day. The Texas Education Agency estimates that most of these young people travel over FM roads for a part or all of their daily trip to and from classes.

The minimum construction requirements for an FM road are two lanes of 10 ft. each, with 26 ft. for bridge width and a minimum bridge load limit of 15 tons. This is sufficient to satisfy demands of FM roads serving local traffic only, but not sufficient to meet the needs of many through routes which link Texas farms and ranches with distant markets.

### POWER MOWERS

Sandals, sneakers or bare feet are out of place behind an operating power lawn mower. They offer no protection should your foot slip into the blade. Many serious foot injuries occur every year, warns Extension Agricultural Engineer Henry O'Neal at Texas A&M University, because the mower operator wasn't wearing shoes heavy enough to protect his feet.

### HEARING AID SERVICE

Robert Parrish, Hearing Aid Specialist will be at the Right Hotel Monday, June 14, 1965 from 10:00 a.m. to 12:00 noon. Free Hearing Test will be given. Batteries and Service on all make aids. Sponsored by:

## Housing Credit Available To Senior Citizens

Elderly people if they live in rural areas, need not give up the idea of building, buying or repairing their homes on credit. This word comes from Henry N. Ivey, county supervisor, serving Milam and Burleson Counties.

Ivey said citizens who are 62 years and over, living in a rural community of 2,500 or less, may be eligible for a 33-year loan bearing 4 percent interest to buy an older home or build a new one.

The FHA supervisor said elderly residents may also be eligible for smaller loans for home repairs.

He pointed out the increasing demand in small towns for rental units designed to meet the housing needs of older folks.

The Farmers Home Administration can loan direct funds to non-profit organizations for construction of senior citizen rental housing.

ing units designed for independent living.

Funds for construction of senior citizen rental housing units may also be provided by private investors with FHA guaranteeing repayment.

This fiscal year through April 30 FHA has advanced \$5,506,376 to senior citizens for construction, buying and repairing of individual homes. The total loaned is up 17 percent over a similar period last fiscal year.

In Milam and Burleson Counties FHA has loaned \$25,200 to eight individual senior citizens to meet rural housing needs during the first 10 months of fiscal 1965. Three additional loans to senior citizens are in process.

Over 1,200 elderly people in the 30 states, Puerto Rico and the Virgin Islands were able to get loans for new or improved housing through the senior citizen rural housing program of FHA.

Another \$1,248,510 was advanced by the U.S. Dept. of Agriculture agency for the construction of rental housing units for senior citizens during the same period, July 1, 1964, through April 30, 1965.

"FHA's senior citizen housing loan program offers citizens, 62 years and older, an opportunity to have housing suited to their needs in the community in which they have spent their working years," Ivey said. "This program also stimulates the local economy by providing jobs for workers engaged in the construction industry and customers for local trades and services."

In 1962 Congress authorized FHA to make direct loans and insured loans to individuals and corporations to finance rental housing for the elderly.

### JUNE IS DAIRY MONTH

For the 29th consecutive year June is being observed as Dairy Month in the United States. Dairy men everywhere says A&M Meekma, Extension dairy specialist at Texas A&M University, play a vital role in keeping Americans well fed and the national agricultural economy strong and stable. Visit your dairymen and see firsthand how efficiently he handles his business.

FHA direct loans for senior citizen rental housing in rural communities bear 3.75 percent interest, with up to 50 years for repayment.

But loans insured by the agency for rental housing currently bear 5.75 percent interest. Borrowers have up to 40 years to repay.

Additional information about the senior citizen rural housing loan program is available at the FHA office at 109 West 2nd street in Cameron and at the courthouse in Caldwell on Thursdays.

### THE HERALD'S FAMILY CORNER

IT'S A LIVING

-- by Al Johns

## Nola Knows

By Nola White

Dear Nola - How can I get rid of a 35 year old divorced man who keeps phoning me for dates? I'm not interested in him and Mother says I shouldn't talk to him.

Carol

Dear Carol - Try hanging up!

Dear Nola - I am in love with a girl who is perfect. We were engaged, but I broke it off because all my friends say I'd be crazy to give up being single. They say everything is swell before marriage, but all wrong afterwards. I think it would be wonderful to have a wife and family, but the experiences of my friends

make me afraid to try it. What do you think?

Timid

Dear Timid - I think you're right, but if you're no better at picking a wife than you are at picking friends, you'd better wait awhile before you pop the question.

Dear Nola - George said we'd go to church every Sunday after we married, but I'm ashamed to tell you how few times we've been in the church house in the last three years. Since the social life in this town revolves around the church we don't have any. What should I do about this?

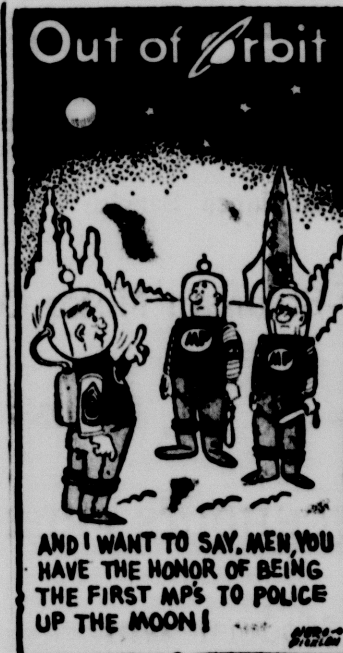

Backslider

Dear Backslider - If you're going to church solely for the "social life," you might do better in the nearest bar. Maybe George sees through this hypocrisy and wants no part of it. I'd suggest that you decide to go to church for the purpose of worship. If that's your motive, you'll have the strength to get there without George!

Personal to Dejected - Someone once said that both a wise lover and a good cook know when the fire is out.

Send your letters to Nola Knows, Box 411, Temple, Texas. For a personal reply include a stamped, self-addressed envelope.

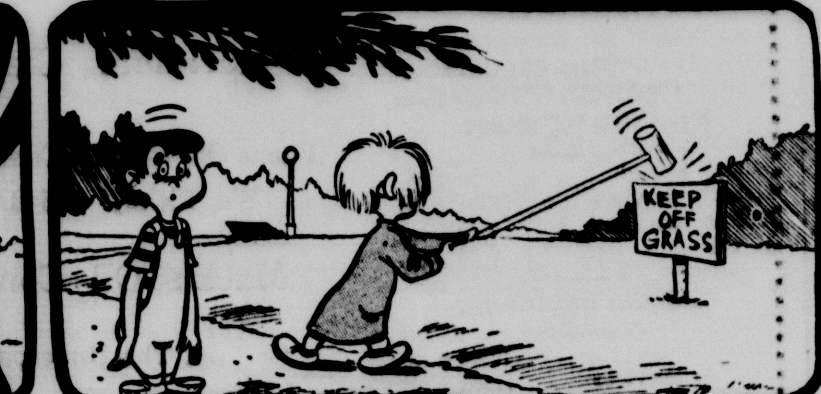

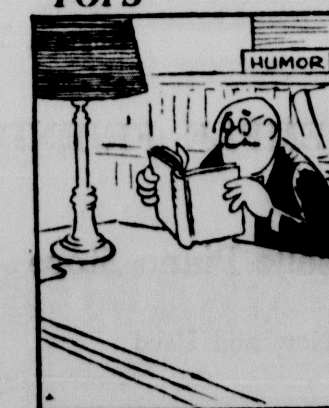

Alexander Graham Bell invented the telephone while trying to build an electric organ.
